## NEW GAS FIELD IS BOOMING

Mexia, Texas, Nov. 1.—The pipe line which is being constructed from the gas fields near here to Teague is nearing completion and gas will be supplied to residents and manufacturers of that city within a short time. The Mexia field is the newest in Texas, and the supply is said to be lasting. Last year the total amount of gas produced in the entire state had a value of \$1,405,000, and 45 new wells were drilled in Texas. Of this number, 24 produced gas, while 23 were dry holes. There are 27,226 domestic users of gas in Texas, and 329 industrial consumers are supplied from the Texas wells. Many new wells are being drilled in this vicinity and prospects are favorable for bringing in more gasers.
